

Ms Emmanuelle David

Ms. David in 2013 worked as a research engineer for space launcher system analysis with DLR, Germany. She graduated from Technische Universitaet Braunschweig 2010 with a diploma thesis on space debris removal, a project in cooperation with Astrium ST, Bremen. After that she was a young graduate trainee for ESA, located at the ESA Washington office. She is actively involved in the Space Generation project, an opportunity for young space researchers to network, discuss and become leaders on next generation space topics.

2013 ASE ISU Fellow Ms. Emmanuel David with astronauts Thomas Reiter, Gerhard Thiele, Viktor Savinikh, and Dorin Prunariu (left to right) at ESOC, Darmstadt
